

FINANCIAL AID

Our financial aid is generously funded in part by the Catholic Schools Foundation. Financial aid based on demonstrated financial need is offered to qualified students in the form of a grant and does not require repayment. Financial aid is awarded for tuition only and does not cover student fees, lunches, transportation, or any other incidental expenses. Decisions regarding financial aid are made separately from the admission process. Financial aid is available to students entering kindergarten through grade 8, and any interested family may apply.

The Financial Aid Process

Financial aid at Trinity Catholic Academy is determined by a family's ability to meet education expenses. Trinity Catholic Academy believes the family should be the first resource for funding their children's education, and it is important to note that the financial aid determination is based on demonstrated financial need and not on the willingness or unwillingness to pay.

Each family is expected to pay a portion of the cost of their student's education or find resources apart from financial aid to fulfill their obligation to Trinity Catholic Academy. Due to a limited budget and the number of families requesting assistance, all qualified need may not be met.

Families applying for financial aid are required to complete an application through FACTS Grant and Aid. Families are also required to submit a copy of their prior year federal income tax return, W-2 forms and all schedules. If applicable, all corporate and partnership/sole proprietorship forms must also be included. Based on the financial information you provide, FACTS gives us an estimated amount your family can contribute to educational expenses.

In order to be assured of consideration, families must be timely and thorough in completing the application process.

Financial Aid Policies

The following policies govern the administration of financial aid at Trinity Catholic Academy:

Students with an outstanding balance from a previous school year must make arrangements for complete payment before they will be allowed to register for the next school year or receive any financial aid. Renewal of a financial aid grant is based on proof of continued financial need. Families must re-apply each year and the amount of assistance may change.

Trinity Catholic Academy believes that both parents have an obligation to support their child’s education. Therefore, in the case of divorced or separated parents, or parents who have never been married, both custodial and non-custodial parents with legal parental rights are each required to submit all of the required financial aid application documents in order for their child to be considered for a financial aid grant.

In cases where one parent cannot comply, the custodial parent should submit a written explanation. Lack of information from either parent may cause an arbitrary assessment of financial need to be made by the school, resulting in a lesser award or no award at all. If either parent has remarried, the income and assets of the step-parent will be considered with full appreciation for and sensitivity to the obligations of that parent to his/her own biological children. If either parent lives in a household with another adult, we may consider the income and assets of that individual depending on the circumstances. If the non-custodial parent does not have legal parental rights, or has not been involved in the child’s life for a period of time to be determined, this requirement may be waived. Any request to waive this requirement must be made in writing and a letter of verification from a neutral third party (pastor, attorney, social worker, etc.) will be required.

Confidentiality

The financial aid process is conducted with the utmost concern and respect for the family’s privacy. Be assured that all financial information submitted in the financial aid application process is held in the strictest confidence by both Trinity Catholic Academy and FACTS Grant and Aid.
